PROFESSIONAL SUMMARY

Associate Software Engineer candidate and MCA graduate with six months of completed Java full-stack internship experience and a current internship in full-stack web development, AI, and databases. Hands-on experience across the software development lifecycle, including requirement analysis, REST API development, authentication, database design, debugging, testing, and deployment. Seeking a full-time software engineering opportunity, preferably in Indore.

TECHNICAL SKILLS

Programming: Java 17, SQL, JavaScript, Python, C#, C++
Core Computer Science: OOP, Collections Framework, basic Data Structures and Algorithms, DBMS, Exception Handling, Debugging
Backend: Spring Boot 3, Spring MVC, RESTful APIs, SOAP APIs, Spring Data JPA, Hibernate, Maven
Frontend: React, HTML5, CSS3, responsive web application development
Databases: MySQL, MongoDB, H2, CRUD, schema design, indexing, query optimization, caching
Security: Spring Security, JWT, BCrypt, authentication, authorization, role-based access control (RBAC)
Tools and Deployment: Git, GitHub, Postman, IntelliJ IDEA, VS Code, Firebase, Render, Vercel

EXPERIENCE

Full-Stack Web Development Intern | C-Net Infotech Pvt. Ltd., Bhopal **SEP 2026 - PRESENT**
- Selected for a full-stack internship focused on AI-enabled and database-backed web applications.
- Completing assigned development tasks from functional requirements under team lead and project manager guidance.
- Building professional experience in application development, database integration, testing, debugging, and technical documentation.

Java Full Stack Web Development Intern | CODTECH IT Solutions Pvt. Ltd. **FEB 2026 - AUG 2026**
- Developed Java and Spring Boot REST APIs with validation, exception handling, and layered architecture.
- Implemented Spring Security, JWT authentication, authorization, and role-based access control.
- Managed MySQL, MongoDB, and H2 data operations; applied indexing, query optimization, and caching.
- Contributed to multiple full-stack projects through technical execution, problem-solving, collaboration, and communication.

PROJECTS

HireMind AI - Advanced Job Portal
- Built a Spring Boot and React platform with Candidate, HR, and Admin workflows, JWT/RBAC security, MySQL, and MongoDB.
- Added AI-assisted job and resume matching, structured application data, and conversational chat logging.

ProjectLN / WorldTours - Hotel and Tour Booking Platform
- Developed authentication, bookings, tour search, and User, Hotel, and Admin dashboards using Spring Boot, React, REST APIs, and MySQL.
- Integrated an Ollama-based AI assistant with role-aware intents and session-based chat memory.

Vogue-Sphere - E-Commerce Platform
- Created a full-stack commerce application with Seller, Customer, and Admin RBAC, JPA/Hibernate relationships, payments, WebSocket chat, and social features.

NextGem Technology - Company Website
- Built and deployed a responsive React and Vite frontend with a Node.js/Express backend and MongoDB Atlas; hosted using Firebase and Render.
- Integrated REST APIs and admin data-management workflows for application records stored in MongoDB.

Live applications: worldtours-app.web.app | nextgem-technology.web.app

EDUCATION

Master of Computer Applications (MCA) | IPS Academy, Indore (RGPV) **JUL 2024 - JUL 2026**
Bachelor of Computer Applications (BCA) | MCNUJC, Bhopal **JUN 2021 - JUN 2024**

ACHIEVEMENTS AND CERTIFICATIONS

- IEEE AI Manthan 2026 Hackathon participant.
- Agentic AI Workshop - AI Agents, Large Language Models, and Prompt Engineering.
- UNXT Soft Skill Development Program - Communication, Spoken English, and Employability Skills.
